

Mechanical Integration - Electrical Systems - Marine Services

(757) 384-1957

650 Chautauqua Avenue, Portsmouth, VA 23707

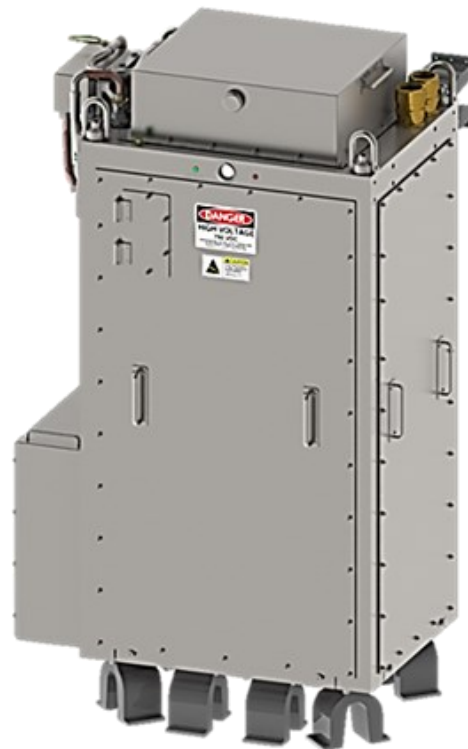

Variable Speed Drives 10HP, 450HP and MVSD

Fairlead's core capabilities include advanced engineered products such as Variable Speed Drives (VSDs) that meet specific Mil-Spec requirements.

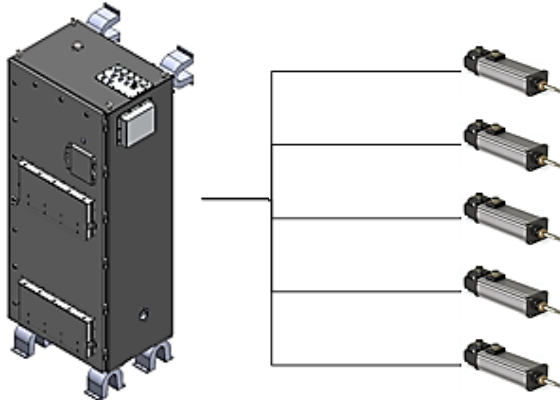

10HP

450HP

Multi-Motor VSD (MVSD)

Independently controls (5) 5HP motors / electric linear actuators

Fairlead manufactures these products for shipboard application to control ship systems such as HVAC (Flexible Infrastructure & Chill Water Plant), and Stanchions and Lock Bars for Aircraft Elevators.
