

Electrical & Mechanical Systems - Vessel Repair - Ship Structures

(757) 384-1957

650 Chautauqua Avenue, Portsmouth, VA 23707

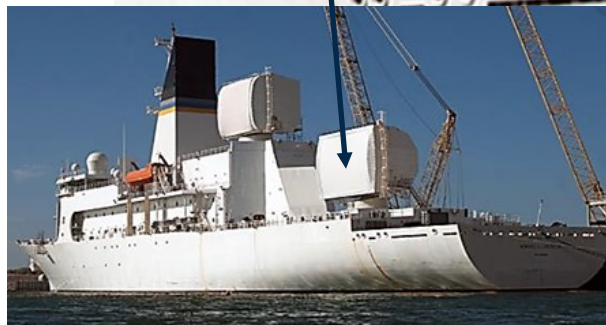

Complex Structures and Fixtures

Fairlead has the ability to process a variety of large materials, with sizes ranging up to 8" thick and up to 40' long. Fairlead's capabilities include prototyping to high volume production, utilizing our large vertical and horizontal milling machines, water jet and laser technology equipment.

ELCAS Fixture

Fairlead is in the process of repairing 10 Elevated Causeway System (ELCAS) modules. Drill fixtures were planned and manufactured by Fairlead in preparation for the ELCAS contract.

Cobra Judy Replacement

Fairlead fabricated the Weather Enclosure replacement for the USNS LORENZEN. Over 40,000 LBS of welded aluminum and 80,000 LBS of steel were installed on the ship. Additionally, the steel assembly and lifting fixtures were designed and engineered by Fairlead.
